A ship load of Agateware would be a big lot for one store even in the United States; it's a big lot for Honolulu and more than we received, but what we did get on two sailing vessels would astonish the people if they saw all the articles in one pile. Our stock of Agateware is selected from "Firsts" not "Seconds;" the quality is the best that can be made and we sell it at the piece you used to pay for the second quality. This means a saving of 331 per cent, because the life of a first-class price of Agateware is a third longer than one of the second class.

When buying for the holiday season there is more pleasure in receiving a useful present than in a bauble. and Princess Kekaulike Kinoikt. Haviland.
